Battle for the cosmos with a friend in a competitive Versus mode, team up in the cooperative SuperNova mode, or play solo in Story Mode against a challenging AI.

There are no power-ups with the exception of a "break all blocks of that colour" warp gem.. ly/326NQKeAbout This GameThe Zodiac Constellations have gone berserk, and the cantankerous Kira the Star recruits you to help save the universe.. Sounds simple enough and it is and often a simple concept makes for an addictive compelling game (like Tetris\bean machine, puyo pop, etc..) The game has a zodiac theme and a small star mascot that narrates the story and shows you the game mechanics.. This wasn't because you didn't place blocks right it was just you are never given the chance to break them.

Balanced with eSports in mind, but finished with a way-too-cute casual touch You may even be able to convince your non-game-playing friends and relatives to play this PC game with you! Story and Single Match Single Player Modes with adaptive AI that gets more difficult over time.. It seemed like luck if you got the opportunity to change a block into a gem and the game often just didn't give you the gem you needed on higher difficulties. [Mysql Connector Java Download Mac](#)

There is some fun to be had here if you really like this sort of game, which I do but this was just not fun or engaging.. This is a "tetris style" game where the blocks fall in different colours After a few blocks you will get a block that gives you a choice of making that block a gem that will break all the blocks of that colour that are touching.. There is no save and as far as I can tell you beat the 12 zodiac signs then go around again at higher difficulty, then again, then again until the game cheats you to death.. Versus and SuperNova Multiplayer Modes where you can play competitive or cooperatively.. 4GhzMemory: 2 GB RAMStorage: 250 MB available spaceEnglish,Japanese This is a really good puzzle game :).. personally I found the star and the sound it makes annoying as all hell The "story" is forgettable and the enemies being star constellations isn't very engaging..
